CAREER OBJECTIVE

Computer Science undergraduate and Full Stack Developer with hands-on experience building scalable REST APIs and responsive web applications using Node.js, React.js, PostgreSQL, and AWS. Enjoys tackling complex problems and applies analytical thinking and Data Structures & Algorithms (LeetCode rating: 1400+) knowledge to engineer efficient, optimized solutions. Nationally recognized at the IN-SPACE CANSAT India Student Competition 2024-25.

EDUCATION

Pranveer Singh Institute of Technology, Kanpur	2023 – 2027
B.Tech in Computer Science and Engineering (AI)	Percentage: 83.74%
The Pentecostal Assembly School Senior Secondary (XII) — 2023	Percentage: 82%
The Pentecostal Assembly School Secondary (X) — 2021	Percentage: 93%

ACHIEVEMENTS

- Secured 2nd Place Nationally at ASI-ISRO Rocketry Competition and Won Best Design Award at ASI-ISRO CanSat Competition as GCS Developer, building real-time telemetry dashboards and satellite deployment simulation software.

EXPERIENCE

Sapein One – Software Engineer Intern	Jan 2026 – Apr 2026
- Built and shipped responsive React.js frontend components within agile sprint cycles, contributing to production deployments. - Integrated and optimized REST API consumption on the frontend, reducing unnecessary re-renders and improving client-side performance under real-world data loads during sprint deliverables.	
Raman Research And Innovation – Full Stack Developer	Apr 2025 – Apr 2026
- Designed and optimised normalised PostgreSQL schemas with Prisma ORM, cutting query latency and supporting scalable data handling across VPS deployment. - Engineered Node.js REST API services achieving 99.9% uptime with Jest & K6 load testing; built responsive React.js/Next.js frontends with mobile-first design, ensuring consistent UI/UX across devices.	

TECHNICAL SKILLS

Languages	C/C++, Python, JavaScript (ES6+), TypeScript, Java
Backend	Node.js, Express.js, REST APIs, WebSockets, FastAPI, JWT, OAuth 2.0, PM2
Frontend	HTML, CSS, SASS, React.js, Next.js, Tailwind CSS, Framer Motion, Bootstrap
Databases	PostgreSQL, MongoDB, Redis, Prisma ORM, MySQL
Cloud & DevOps	AWS (EC2), MinIO, Firebase, Docker, Git, GitHub Actions, CI/CD, Linux
Tools & Methods	Agile/Scrum, Postman, VS Code, Nginx, API Testing, Unit Testing (Jest, Grafana K6)

PROJECTS

Wegyanik.in – E-Commerce Platform	wegyanik.in
- Architected a normalised PostgreSQL database with Prisma ORM and deployed RESTful Node.js APIs on VPS, optimising queries and ensuring high availability. - Built fully responsive Next.js storefront with Three.js 3D design visualisation, delivering seamless UI/UX and complete frontend integration.	
Tech Stack: Next.js, Node.js, PostgreSQL, Prisma ORM, Three.js, Tailwind CSS, Testing(Jest, Grafana k6)	
Vi Meet – Real-Time Video Communication App	Vi Meet
- Developed peer-to-peer video conferencing with WebRTC and Socket.io using a custom TURN server for reliable NAT traversal. - Integrated Firebase Realtime Database for persistent chat and session state, maintaining data consistency across recon-nections.	
Tech Stack: React.js, CSS, Node.js, WebRTC, Socket.io, Firebase, TURN/STUN Server	
AuthScan – Automated Certificate Data Extraction	GitHub
- Built a computer vision pipeline with fine-tuned Tesseract OCR and OpenCV preprocessing to automate certificate data extraction. - Exposed extracted JSON data via a FastAPI endpoint, integrating with downstream processing workflows and reducing data turnaround time.	
Tech Stack: Python, FastAPI, Tesseract OCR, OpenCV, JSON	

CERTIFICATIONS

1. Salesforce Certified AI Associate	Salesforce, 2024
2. Python for Data Science	Infosys, 2025
3. Introduction to Data Science	Cisco, 2024
4. Programming Fundamentals using Python, HTML5, CSS3	Infosys, 2024
